Peak Services

We help local government achieve more

Peak Services was created by the LGAQ to provide professional services and products that local governments need, delivered by an expert team that knows and understands the sector well.

What makes Peak unique is that it tailors its offerings across areas such as recruitment, grants writing and legal services to best reflect each of its customers local needs.

As a profit for purpose enterprise, any profits are returned to the LGAQ for it to use in its advocacy, engagement and member services to benefit all Queensland councils, and which also helps keep membership fees low.

Our Strong Heritage

Owned by the Local Government Association of Queensland (LGAQ), we share a proud legacy of working to enhance local government and boosting the LGAQ's work of advising, supporting and representing local councils across Queensland.

Our People, Your Team

Our combined professional strengths and integrated capabilities are as diverse as the communities we serve. Our people are what set us apart and we understand the specific challenges local governments face.

Our Breadth of Service Delivery

Peak Services provides information and experience as well as capacity and resources in specific areas capable of delivering a range of tailored solutions to suit your needs.

Community Support Program

Event sponsorship for council-led initiatives that support community, economic development and tourism.

Butch Lenton Innovation Memorial Award

Established in 2018, this annual bursary of \$10,000 is awarded to a regional or bush council to support innovative projects.
